Experience

Front-End Engineer — ARHS Developments (Remote, EPO)

Jan 2025 – Present

- Modernizing enterprise web apps with ReactJS & Next.js.
- Introduced Redux Toolkit Query for consistent state/data management.
- Proposed Agile ceremonies (planning, retrospectives, stand-ups) to improve collaboration.
- Volunteered for a Scrum Master-like role, facilitating smoother workflows.

Front-End Engineer — ARHS Developments (Remote, Proximus)

Jul 2019 – Dec 2024

- Built enterprise-scale apps with Angular & Magnolia CMS.
- Leveraged RxJS/NGXS for async data & state management.
- **Reduced UI bugs by ~30%** via Cypress regression suite & expanded unit/mutation coverage.
- Introduced Stryker mutation testing → more bulletproof unit tests, higher release confidence.
- **Improved code quality by 25%** (SonarQube: fewer code smells, reduced complexity).
- Mentored juniors, code reviews, Agile collaboration.

Front-End Developer — Agroknow (Athens)

Jun 2018 – Jun 2019

- Contributed to FOODAKAI rewrite with ReactJS, improving maintainability.
- Built research tools with React & Drupal CMS.

- Collaborated closely with backend on APIs/data flows.

Junior Web Developer — Contadd (Athens)

Nov 2016 – May 2018

- Prototyped & improved UI animations with jQuery → GSAP.
- Enhanced analytics setup with Cloudflare & DoubleClick.

Education

BSc Computer Science (in progress)

Hellenic Open University (H.O.U.), Athens — 2017–Present

The Computer Science program at HOU provides a comprehensive education in computer science, covering a wide range of topics from software engineering to artificial intelligence. The program includes courses such as programming, algorithms, data structures, databases, and computer networks, making it accessible to individuals with basic computer knowledge. From fundamental concepts to advanced computer science techniques, the curriculum offers a holistic approach to computer science education.

Certifications

- [Certified Associate Developer](#) — Magnolia CMS
- [Angular](#) – The Complete Guide (Udemy)
- React Training (CodeHub)
- Web Development Certification (EKPA)

Skills

Frontend: JavaScript (ES6+), TypeScript, Angular, React, Next.js

State/Data: NGXS, RxJS, Redux, RTK Query

UI: TailwindCSS, Bootstrap, Angular Material

Testing/QA: Jest, Cypress, Stryker, SonarQube

DevOps & Tools: Git, GitLab CI/CD, GitHub Actions, Docker (basic)

CMS: Magnolia, Drupal

Methodologies: Agile/Scrum

Languages

- Greek — Native

- English — Professional Working

Interests

- Competitive Strategy Games (One Piece TCG, Magic: The Gathering) → **strategic planning, adaptability**
- Gaming Communities (Soulsborne, Baldur's Gate 3) → **problem-solving, persistence**
- Dungeons & Dragons → **teamwork, creativity, communication**
- Outdoor Activities with my Dog — **balance, responsibility, stress relief**
- Anime & Manga Enthusiast
