Experience

Front-End Developer — ARHS Developments (Remote, EPO)

Jan 2025 – Present

- Modernizing enterprise web applications using React and Next.js.
- Worked with Redux Toolkit Query for data fetching and state management.
- Took initiative in improving team collaboration by supporting Agile ceremonies (planning, backlog refinement, retrospectives).

Front-End Developer — ARHS Developments (Remote, Proximus)

Jul 2019 – Dec 2024

- Built and maintained enterprise-scale applications using Angular and Magnolia CMS.
- Worked with RxJS and NGXS for asynchronous flows and state management.
- Used Jest for unit testing and Stryker for mutation testing.
- Contributed to UI stability through Cypress regression testing.
- Collaborated with the team to maintain code quality using SonarQube.
- Supported junior developers mainly on Magnolia CMS topics.

Front-End Developer — Agroknow (Athens)

Jun 2018 – Jun 2019

- Contributed to the FOODAKAI rewrite using React.
- Built research tools for external researchers, integrated into Drupal CMS.
- Collaborated with backend developers on API integration and data flows.

Junior Web Developer — Contadd (Athens)

Nov 2016 – May 2018

- Enhanced existing ad animation prototypes by transitioning from jQuery-based animations to GSAP.
- Assisted with analytics setup and tracking using Cloudflare and DoubleClick.

Education

BSc Computer Science (in progress)

Hellenic Open University (H.O.U.), Athens — 2017–Present

The Computer Science program at HOU provides a comprehensive education in computer science, covering a wide range of topics from software engineering to artificial intelligence. The program includes courses such as programming, algorithms, data structures, databases, and computer networks, making it accessible to individuals with basic computer knowledge. From fundamental concepts to advanced computer science techniques, the curriculum offers a holistic approach to computer science education.

Certifications

- [Certified Associate Developer](#) — Magnolia CMS
- [Angular](#) – The Complete Guide (Udemy)
- React Training (CodeHub)
- Web Development Certification (EKPA)

Skills

Frontend: JavaScript (ES6+), TypeScript, Angular, React, Next.js
